ABOUT US

Sleek Infosolutions Pvt. Ltd. established in the year 2003 with the objective of empowering e-business and creating the maximum ROI with compelling IT Solutions, Web and Mobile App development services, and Digital Marketing over the globe. Converting confrontations into better opportunities and then success has been the hallmark of Sleek Infosolutions, ever since its initiation.

The services of Sleek InfoSolutions come in different packages, suitable to small, large and medium-sized companies. Blending the latest technology with our clients' needs, we ensure that commendable traffic comes to their web sites, a sizable part of which ultimately translates into sales. While working on our client's projects, we at Sleek InfoSolutions keep concise communication channels open to share information and promptly make the changes requested by them in the feedbacks.

Few of our Clients we work with

Web & Mobile Development

Our team plans, designs, and develops stunning responsive websites that will increase conversion rates and overall traffic.

We make sure that our responsive websites are beautiful across all devices.

Our responsive web design makes sure that your business is prepared for the future mobile web.

Sleek InfoSolutions understands that the design of a website should be in tune with the requirements of the user. When you take your business online by means of a website, it helps you to communicate with your existing and prospective customers. As the user plays a key role, the user's needs should be kept in mind while designing your site.

The usability of a website refers to its potential to help the users achieve their goals. This is done by means of the User Interface, the user's way of interaction with the site and how the site asks the users to interact and responds to them.
